destination list 302 of detail detonations for document transmission by the use of the address directory 301. Then detailed designations in the destination list 302 are added, revise or deleted. Furthermore, the address directory 301 is revised remotely by the use of a WEB server 304. Then the detailed destination is automatically selected from the address directory 301 in accordance with a prescribed condition. Furthermore, a cover page is automatically generated in accordance with the prescribed condition and a document transmission section 305 sends it.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
